GLENDALE HEIGHTS FEST 2019

Wednesday, July 10 - Sunday, July 14 • Camera Park • www.glendaleheightsfest.com

#GHFest2019

Filled with fun, food and fireworks, Glendale Heights Fest kicks off Wednesday, July 10 and runs through Sunday, July 14 at Camera Park. Take in the carnival and rides, along with exciting entertainment and fantastic food booths. Enjoy a breathtaking display of fireworks at dusk on Wednesday, July 10 and again on Sunday, July 14. Plan to spend a fun-filled time at Glendale Heights Fest with delicious food and entertainment for the entire family.

Turn to pages 12 and 13 for details about Glendale Heights Fest including hours, entertainment line-up and much more!

Join us Saturday, July 13th as we celebrate the Village of Glendale Heights' 60th Anniversary!

We will be taking it back to 1959 as we look back at all of the best trends, music, commercials and more!
Come dressed in your best "Grease" themed outfit as we jump back in time when "Grease" took place: 1959!

National Night Out

Tuesday, August 6 • 6:00 pm to 8:00 pm • Civic Center Campus • 300 Civic Center Plaza

National Night Out against crime is celebrated annually on the 1st Tuesday in August by Law Enforcement Agencies across the United States. The Glendale Heights Police Department invites you and your family to join them in showing your support for crime and drug prevention in Glendale Heights.

This free event is open to all residents and is meant to raise awareness about crime prevention in our community. The Glendale Heights Police Department has coordinated an evening of fun featuring a police dunk tank, games, face painting, The Magic of Brian Holt (sponsored in-part by the Glenside Public Library District), a visit from McGruff the crime fighting mascot, and emergency apparatus demonstrations by the Glenside and Bloomingdale Fire Protection Districts. Also during the event, Heartland Blood Center will be at the Village Hall for the "Gina Thorson Memorial Blood Drive", from 3:00 pm to 7:00 pm in the Police Department Training Room. Grilled hot dogs and hamburgers, snacks and water will be offered free of charge and served by Glendale Heights Police Officers, Village Officials and the Glendale Heights Junior Woman's Club. We hope you will join us.

For more information, contact Community Outreach Specialist, Tanya Macko at 630.909.5459 or the police non-emergency number at 630.260.6070.

Letter from the Village President

300 Civic Center Plaza • Glendale Heights, IL 60139
630.909.5303 • ljackson@glendaleheights.org

Dear Residents,

The summer season is seemingly flying by with an array of events, programs and activities happening every day in Glendale Heights. However, this July is a special month as the Village of Glendale Heights celebrates our 60th anniversary! From our official incorporation on July 13, 1959 until today, we have grown into a truly special community full of diversity, businesses, parks, and more. We remember all of our historical families who helped pave the way for Glendale Heights and thank those who took action in creating our community. From our founding father, Harold Reskin, to our residents, businesses, Village Board Members past and present, hardworking staff, volunteers, and so many influential people in our history, we thank you all for creating our wonderful community – Glendale Heights!

Join us on Saturday, July 13th at Glendale Heights Fest as we remember our Glendale Heights history over the past 60 years. We will be featuring music through the ages, games, "Grease" themed activities, and more. Just a reminder, Glendale Heights Fest opens on Wednesday, July 10th with opening ceremonies and fireworks, and will continue until Sunday, July 14th when we have our big fireworks finale to close out the event. We will also have games, delicious food, and fun rides for the whole family! Be a part of history and come celebrate with us at Glendale Heights Fest!

Join us at National Night Out on Tuesday, August 6th as Law Enforcement Agencies across the country join together to have a night out against crime and celebrate crime and drug prevention. We will be featuring live demonstrations, snacks, a dunk tank and more. The Heartland Blood Center will also be here for those looking to donate blood as part of the "Gina Thorson Memorial Blood Drive".

The Village Board of Trustees and I look forward to seeing all of you this summer at our many community events and neighborhood park parties! Join us in celebrating our 60th Anniversary and remembering our history through time. We encourage you to take pride in your community, get involved, volunteer for things and remember those before us who laid the groundwork for everything we have today. Join us in "Celebrating our past and creating our future."

Sincerely,

Linda Jackson, Village President

Coffee with the Mayor & Board

Coffee with the Mayor & Board is held on the first Saturday of each month* from 10:00 am to noon at the Center for Senior Citizens. **The next Coffee with the Mayor & Board is scheduled for August 3.**

There is no Coffee in July. If you are unable to attend and have a comment, suggestion or question, please call the Mayor's Office at 630.909.5303.

*Subject to Change

60 Facts in 12 Months Celebrating 60 years of the Village of Glendale Heights

- Schmale Road is actually pronounced "Sh-male"! It's named after Johan H. Schmale.
- The first Police Department and Village Hall was located next to Circle Park. The home is still there today!
- The original public pool was also located at Circle Park!
- The first and only police officer had gone missing.
- The Village then hired three part-time officers who would not wear uniforms and be paid \$1.50 per hour.

Glendale Heights Village News

300 Civic Center Plaza • Glendale Heights, IL 60139
630.260.6000 • www.glendaleheights.org

Water rates increasing July 1st... here's why...

The current water and sewer system is **50-60 years old**. As the Village's water and sewer infrastructure ages, additional improvements are required to replace and repair hundreds of miles of water and sewer lines.

The present water meters are **19 years old** and are past their life expectancy. There is an urgent need to replace water meters and meter reading devices Village-wide.

The Village is required to comply with State mandates related to phosphorous reduction requiring significant modifications to the wastewater treatment facility.

The actual increase in cost of water purchased by the Village from the DuPage Water Commission. All customers will be charged the actual cost charged by the DuPage Water Commission as of May 1, 2019.

Glendale Heights has always had exceptional water quality as outlined in the Annual Water Quality Report. We hope to continue the high level of services to the entire Glendale Heights community!

More information on page 16

Historic House Tours

August 10 and September 28 • 10:00 am - 1:00 pm
311 Windy Point Drive

Step inside the front door and step back in time to the way things were over 100 years ago, right down to the working pump on the kitchen sink, a wood burning stove in the kitchen, oil burning light fixtures, and the player piano in the front parlor. The attached exhibit hall is devoted to the display of the history of Glendale Heights, from the original settlers who arrived in the 1830's, to the incorporation of the Village in 1959, and its growth and development over the past 60 years.

If you love the Victorian era, this is something you will want to experience. Bring the kids along to see the working train set and farm land exhibit, and don't forget your camera. The Historic House is a wonderful "old place" in our community.

Pakistan's Independence Day Celebration

Saturday, August 10 • 5:00 pm to 11:00 pm • Camera Park

Don't miss out on this special celebration honoring Pakistani Independence. There will be fun for all ages including a variety of entertainment. Formal introduction of dignitaries will take place at 6:30 pm followed by more great music and entertainment.

For vendor or sponsorship information, please call Sohail Bari at 630.709.9467. For the cultural program, please contact Farah Bari at farahbari93@gmail.com.

Glendale Heights Foundation

The Glendale Heights Foundation (GHF) is a non-profit organization that can provide limited one-time emergency financial assistance to Village residents. The Foundation does not provide rent or mortgage payment aid. All assistance requests must be submitted in writing with name, address, details about the emergency circumstances, and financial assistance requested. A GHF form can be downloaded from the Village website. Send your request to Glendale Heights Foundation, P.O. Box 5280, Glendale Heights, IL 60139. Tax deductible donations are always welcome and graciously accepted. Support the Glendale Heights Foundation when you shop at Amazon by visiting smile.amazon.com/ch/20-1044368 and AmazonSmile will donate a percentage of your purchase to the Glendale Heights Foundation. It costs you nothing and will help us support Glendale Heights residents! For more information, please email info.ghfoundation@gmail.com.

Looking Ahead!

September 2 - Final Day at GH₂O

September 7 - Coffee with the Mayor and Board

September 11 - Patriot Day Candlelight Ceremony

September 12 - 22 - Glendale Heights Oktoberfest

September 15 - Show & Shine Car Show and Community Garage Sale (Rain Date: September 22)

September 28 - Fishing Derby/Harvest Fest

Arrive early to purchase concessions and participate in our superhero costume contest, yard games, and giveaways.

Glendale Heights Center for Senior Citizens

260 Civic Center Plaza • Glendale Heights, IL 60139

630.260.6050 • www.glendaleheights.org/Seniors

Promoting "Fuller, Stronger, Longer Lives"

CENTER FOR SENIOR CITIZENS MEMBERSHIPS

Have you received your new Center for Senior Citizens membership card? All members need to get a new card. Come on in and smile for your new photo on your new ID!

If you are a resident of Glendale Heights, 60 years or better, your annual membership to the Center is free! Non-residents can join for only \$25 for the year. Dates will be adjusted to cover memberships that have been paid for within the last 12 months. We offer an array of programs, services, trips and more! Most importantly, we help you reconnect with old friends and also make new ones! Please see Center staff for more information. Remember, memberships need to be renewed annually in person to be an active member!

REPUBLIC SERVICES REFUSE COLLECTION SENIOR DISCOUNT

If you are 65 years old or better and the property owner with the Republic Services billing in your name, you are eligible for a 35% monthly discount for your Refuse Collection Services. You may also request a smaller garbage tote.

To obtain your discount, please send a letter with your name, address, account number and proof of your age including a copy of your most recent property tax bill to: Republic Services Customer Services, 5050 W. Lake Street, Melrose Park, IL 60160 or fax to: 708.498.5383. Please call Republic Services at 847.981.0091 with any questions. You can also bring the documents listed above to the Center for Senior Citizens and the Center staff would be happy to assist you.

DSCC Lunch at the Center

On Mondays, Wednesdays and Fridays, individuals that are 60 or better are welcome to take part in the Senior Nutrition Program. Individuals do not need to be members of the Center for Senior Citizens. The DuPage Senior Citizen Council (DSCC) has operated its county-wide Senior Nutrition Program since 1983. The Senior Nutrition Program at the Center provides nutritious meals with socialization and education possibilities. **Cost:** \$3.50 Suggested Donation

CHRISTMAS IN JULY JULY 22 • 11:30 AM IT'S A WONDERFUL LIFE

This classic 1949 film will be covered on screen in trivia, pictures, history and several songs will be performed that were featured in the movie!

A TRIP TO ITALY AUGUST 26 • 11:30 AM

VIC DAMONE: THE BROOKLYN BARITONE

The life and music of this Italian crooner will be shown on screen with many select hit songs performed! Vic Damone was considered the heir apparent to Frank Sinatra, and Sinatra himself said "Vic Damone has the best pipes in the business"!

RIVERSIDE CASINO AND GOLF RESORT TRIP

3 DAYS/2 NIGHTS • OCTOBER 7 – 9 • \$215 SINGLE, \$169 DOUBLE, OR \$164 TRIPLE

REGISTRATION DUE BY AUGUST 15. FULL PAYMENT DUE AT TIME OF RESERVATION. NO REFUNDS AFTER AUGUST 15

At Riverside Casino and Golf Resort, water cascades above a dramatically lit bar and lounge. Large plasma screens entertain you. Impressive sculptures adorn the walls. Plush carpet is beneath your feet. In other words, this is not your typical Midwest casino.

Far from it. Inspired by the lavish casinos of Las Vegas, the gaming area at Riverside Casino & Golf Resort sets a new standard of excitement, entertainment and fun.

Trip Includes:

- Deluxe motor coach transportation. Bus departs the Center at 7:00 am
- \$10 in slot play and a free lunch buffet at Rhythm City
- \$15 free slot play on day 1, \$20 free slot play on day 2, \$10 free slot play on day 3 (\$45 total) at Riverside Casino
- \$5 off at Robert's Buffet on day 1 and day 2
- Free breakfast buffet on day 2 and 3 at the Riverside Casino and Golf Resort
- Optional day trip to Amana Colonies on day 2 (minimum of 10 people required to go)

2020 Wedding Bookings

2020 is already starting to book up for weddings! Meet with our professional banquet coordinators and let us help you have the perfect event! Reserve your date by calling 630.260.0095

Thank You!

20th Annual Charity Golf Classic

The Village of Glendale Heights, the Glendale Heights Chamber of Commerce, and FOP Lodge 52 thank everyone that helped to make the 20th Annual Glendale Heights Charity Golf Classic a great success as thousands of dollars were raised for the FOP Lodge 52 Community Enrichment Fund, the Glendale Heights Chamber of Commerce Scholarship Fund and Make-a-Wish Illinois. Without our sponsors and community support, this event would not be the success it has been over the years.

Private Golf Lessons

2019 Private Golf Lessons are available for groups up to four golfers. Learn the rules of the game, etiquette, putting, chipping, and the full swing. Private lessons offer the opportunity for one-on-one focused learning. To schedule your lesson, please call 630.260.0018 and ask for Steve!

GOLF TRIVIA

• 125K Golf balls are hit into the water at the 17th hole of the Stadium Course at Sawgrass each year.

- The French word "Cadet" (cad-DAY) means "youngest child" and is where the word "Caddy" comes from.
- Doug Ford entered a contest and predicted his own 1957 victory as well as his winning score of 282.
- Golf balls used to be made from leather and chicken or goose feathers. One ball would cost \$10-\$20.
- Only 20% of golfers have a handicap below 18. A golfer with handicap of 18 is called a "Bogey Golfer".
- Only two sports have ever been played while on the moon. One is golf and the other is the javelin throw.
- Until the invention and rising popularity of the golf tee, golfers played off of sand piles they built themselves.

Summer Scramble

Sunday, July 14th
9:00 am Shotgun Start

\$340 per four person team

Register for the 4th annual Summer Scramble! Price includes golf, cart, breakfast, lunch, dinner and prizes!

Registration is now open. To register, call 630.260.0018 or visit www.glendalelakes.com

Public Works Department

1615 Glen Ellyn Road • Glendale Heights, IL 60139
630.260.6040 • www.glendaleheights.org/PW

Water Conservation

Residents, property owners, renters, or property managers are reminded that on May 1st, the Village of Glendale Heights began its Outdoor Water Usage Schedule for water conservation. Persons or entities owning or controlling property in the Village may use water for outdoor water sprinkling and/or other large consumption purposes on designated days and times. Unless otherwise provided, the following outdoor water usage schedule shall apply:

- Outdoor water use is permitted between 6:00 am - 10:00 am & between the hours of 6:00 pm - 10:00 pm.
- Odd number street addresses are permitted to water on odd days of the month.
- Even number street addresses are permitted to water on even days of the month.

Street Division

Motorists traveling Glendale Heights' roads are asked to recognize the importance of slowing down in work zones. Motorists should drive with focus as they approach, enter, and travel through work zones, for their own safety and that of their passengers, other drivers, pedestrians, construction workers, utility workers, and public safety professionals.

Distracted driving contributes to 25% of all police reported traffic crashes according to the National Highway Traffic Safety Administration (NHTSA). Be patient as most of the time work zones require lane closures. Remain alert in case you need to slow down or stop due to traffic or construction work.

Thank you to G. Stanley Hall Elementary School for Visiting!

Staff at the Water Pollution Control Facility (WPCF) would like to thank the students of G. Stanley Hall Elementary School for touring and visiting the plant! As part of National Public Works week, the WPCF hosted the 5th grade classes as they learned about the process and steps needed to treat our water. Students even got the opportunity to look under a microscope at the microorganisms that help process waste. We hope you learned a lot on the importance of making sure our water is clean for the environment!

Summer Tire Tips

Checking your tires is crucial in the summer. Long road trips with heavy loads and high temperatures can stress your tires to the max. Make sure that you have the correct amount of tire pressure in your tires at all times.

Also, don't forget to check the spare. Over time, the spare loses air and won't be much use if flat.

Glendale Heights Police Department

300 Civic Center Plaza • Glendale Heights, IL 60139
Emergency Help: 911 • Non-Emergency: 630.260.6070
www.glendaleheights.org/police

CHARACTER COUNTS! in Glendale Heights

The Glendale Heights CHARACTER COUNTS! Coalition would like to invite our residents and businesses to practice

T (trustworthiness) **R** (respect) **R** (responsibility) **F** (fairness) **C** (caring) and **C** (citizenship) this summer with us in Glendale Heights.

The Village of Glendale Heights congratulates all of the award winners announced at the 2019 CHARACTER COUNTS! Pillar Awards Annual Recognition Breakfast.

The pillar for July is **TRUSTWORTHINESS** & the pillar for August is **RESPECT**.

Glendale Heights Cooling Shelters

As you know, the summer months can bring extremely hot temperatures and dangerously high humidity to the area. Small children, senior citizens, and persons suffering illness or disability are especially vulnerable to extreme heat and humidity. The Glendale Heights Police Department is asking residents to please check on their relatives, friends, and neighbors to ensure their well-being and safety. During these long hot summer days, please be reminded of the following tips for staying cool this summer:

- Be aware of the heat. Pay attention to it, and modify your activities appropriately
- Pay attention to your hydration status, and be sure to drink plenty of fluids
- Try to stay in relatively cool areas, even when outside. Many public places such as libraries, shopping malls and movie theatres are air conditioned.
- Avoid hot enclosed places, such as cars. Never leave children unattended in a car parked in the sun.
- Use a fan, if available
- Stay on the lowest floor of your building
- Eat well-balanced, light, regular meals
- Wear loose-fitting, lightweight, light-colored clothing
- Cover windows that receive a significant amount of sun with drapes or shades to help keep your house cool
- Weather stripping and proper insulation will keep cool air inside your home
- Cool beverages are good for cooling down the body, while alcoholic drinks can impair the body's ability to regulate its temperature

Glendale Heights will activate a temporary cooling shelter to assist our community when weather conditions present such a need. For additional information about cooling shelters, please call the Police Department's non-emergency number at 630.260.6070 and as a reminder, in ANY emergency you are encouraged to call 9-1-1 for immediate assistance. Have a safe, enjoyable and cool summer!

Rage & Aggression on the road

For more information please contact the Glendale Heights Police Departments Community Outreach Specialist, Tanya Macko at 630.909.5459 or tanya_macko@glendaleheights.org.

Movie licensing sponsored by the Kiwanis Club of Glendale Heights!

Fireworks are often used to mark special events and holidays. However, they are not safe in the hands of consumers. The Bloomingdale and Glenside Fire Protection Districts and the National Fire Protection Association (NFPA) are opposed to consumer use of fireworks, and the **use of fireworks is illegal in Illinois!** Fireworks cause thousands of burns and eye injuries each year. Even sparklers burn hot enough to cause third-degree burns. People can enjoy the holidays if they remember the following:

- Fireworks cause an average of almost 20,000 reported fires per year
- Sparklers cause 41% of fireworks injuries
- Be safe. If you want to see fireworks, go to a public show put on by experts.
- Do not use consumer fireworks
- Keep a close eye on children at events where fireworks are used

For more information about fireworks safety or other safety information, visit our websites at www.glensidefire.org or www.bloomingdalefire.com.

Citizen's Police Academy

Tuesday's, September 3 - November 5 6:00 pm - 9:00 pm
Police Department Training Room • FREE

The Glendale Heights Police Department will host their 21st Citizen's Police Academy. The program taught by officers from the Glendale Heights Police Department along with guest instructors from other agencies, is designed to give residents a realistic view of police work by providing instruction on various police topics.

A minimum enrollment of 10 students is required to hold the Academy, and the maximum class size will be limited to 24 students.

Enrollment is free. Citizens 18 years of age or older who live or work in Glendale Heights are invited to attend. *Note: Due to the nature of the course and curriculum, individuals with prior felony arrests or convictions will be declined.

Applications for enrollment are due no later than August 23. Interested persons are encouraged to contact Sergeant Michael Pentecost at 630.909.5457 or Maureen Pope at 630.909.5407 for additional information or an enrollment application. Applications can also be downloaded and printed from the Village website, but must be dropped off or mailed to the Police Department once completed.

Monday - Friday - 7:00 am - 9:00 am; 11:00 am - Noon; 7:00 pm - 8:00 pm
Sunday - 5:30 pm - 7:00 pm

Fee: \$50.00 (GH₂O Aquatic Center Members ONLY)

Surf Club runs through August 10th (No Surf Club on July 4th)

Post Season Hours

Weekends Only through Labor Day
from 8/12 - 9/2
Noon - 7:00 pm

Special Events

July 4 – 4th of July party

July 21 – National Ice Cream Day

August 3 – FlowRider Competition

Swim Lessons

(Ages 8 months and up)

The Village of Glendale Heights Aquatic Center offers a progressive and self-paced swim lesson program each summer. We offer student-focused instruction while maintaining low, age-appropriate ratios. Classes run Monday through Thursday for two week sessions throughout the summer. We reserve Fridays as make-up days if we cancel class due to weather or events.

Instructors test swimmers on the first day of class. If the swimmer does not show the skill set required for the course, the pool manager will reassign the swimmer to another level. Please note the appropriate fee or refund will apply. The best way to find the right class is to read the skills taught for each level. If the swimmer has not accomplished the listed goals, we recommend the student start in that class. At the end of each session, swimmers receive a certificate indicating their progress.

All classes include a lesson on water safety. Lifeguards may instruct out of the water due to weather or subject matter, and the lesson counts as a class. We invite parents to observe from the concession area of the pool, and from this area only, to reduce distractions to students. The Pool Manager holds final authority to cancel or postpone classes. In case of inclement weather, please call 630.260.6000, ext 3342 for the status of the swim lesson. There are no refunds for lessons missed due to inclement weather. There are no make-up classes or refunds for students who miss lessons.

Paint Reuse & Recycling Tips

Tips to better manage use of latex paint!

When painting a room, buy what you need and not just what is on sale. Save leftover paint in a glass jar with minimal air space for touch ups. Label the jar for which room the paint was used or keep in the room itself. Do not store paint in the garage - once frozen it is not reusable. **How to**

Dispose of Unusable Latex Paint

Latex paint is not a hazardous material and therefore it may be discarded in the trash when properly prepared per hauler requirements. **Republic Services will collect unusable latex paint during residential curbside collections only when the paint is hardened*** and dry and when the can(s) are placed next to the totes with the top(s) off. The truck driver will confirm that the paint is dry/hardened and place it in the cart for disposal. For further questions, residents may contact Republic Services 847.981.0091.

*To dry paint, mix sand, dirt, kitty litter or oil dry to soak up the paint until the substance has turned into a dry paste and has hardened. For more information on how to handle unwanted paint, you may visit DuPage County's Recycling website at https://dupageco.org/EDP/Waste_Recycling_and_Energy/31416/ or call 630.407.6702.

Easy Recycling Tips

FOR YOUR HOME

There is no need to separate your recyclable items. Paper, plastic, metal and glass items are accepted in your recycling cart. Be sure your recyclables are **empty, clean and dry** before you put them in your recycling cart. Do not place recyclable materials in plastic bags. Flexible plastics (grocery bags, plastic packaging, bubble wrap) are not accepted. Flatten all corrugated cardboard

boxes, paperboard and remove any non-paper packaging material or packing peanuts. For more information, visit www.recyclingsimplified.com. If you have any further questions concerning refuse and recycling services, please call Republic Services at 847.981.0091, or visit their website at www.republicservices.com.

BLOOMINGDALE TOWNSHIP HAS TEMPORARILY SUSPENDED ALL ELECTRONIC RECYCLING

Bloomington Township Highway Department has suspended all electronic recycling programs. For information on recycling events and collection sites in our area, you may visit DuPage County's Recycling webpage at: www.dupageco.org/recycling.

Water Bill Auto Pay

Pay your water bill automatically by registering for monthly auto-payment. Auto payment will withdraw your monthly payment on the due date directly from your checking, savings, debit, or credit card. Register online at www.glendaleheights.org and select on-line water payment. If you are already registered for on-line payment, access your account and follow the instructions for auto-payment. Call 630.260.6010 with any questions.

Thank you to
ID Commerce + Logistics, Kiwanis Club of Glendale Heights, Cub Scout Pack 355, and April Hieronymus of Ben Kinney Real Estate Team - Keller Williams!

Thank you to ID Commerce + Logistics (Siems Park, top), Kiwanis Club of Glendale Heights (Americana Park/Nazos Park), Cub Scout Pack 355 (Camera Park), and April Hieronymus of Ben Kinney Real Estate Team - Keller Williams (Circle Park) for helping clean up, paint and plant flowers at their adopted parks!

If you have a business or community group interested in adopting a park, please contact the Parks Division at 630.260.6060!

GLENDALE HEIGHTS

Known to many as one of the Western Suburbs' premier events, Glendale Heights Fest will be held on Wednesday, July 10 through Sunday, July 14 at Camera Park. Enjoy the carnival and rides, along with exciting entertainment and fantastic food booths.

Watch a breathtaking display of fireworks at dusk on Wednesday, July 10 and again on Sunday, July 14. Plan to spend a fun-filled time at Glendale Heights Fest with delicious food and entertainment for the entire family.

Carnival Wristband Days

Purchase a carnival wristband on or before July 9th and pay just \$20! Regular wristband sales are \$25 during the event. **A Wristband for unlimited carnival rides is honored on ONE of the following days and times:**

Wednesday: 6:00 pm – 11:00 pm
Thursday: 6:00 pm – 11:00 pm
Friday: 6:00 pm – Midnight
Saturday: 3:00 pm – 7:00 pm
Sunday: 3:00 pm – 7:00 pm

Advanced daily pre-sale wristband vouchers are available through Tuesday, July 9th.

Pre-sale wristband vouchers can be purchased at the following Glendale Heights locations: Village Hall, Center for Senior Citizens and the Sports Hub.

5-Day Mega Pass - Only \$70

The Mega Pass card (\$70) is valid for unlimited rides on all 5 days! Every Mega Pass holder will be required to take a picture for a Mega Pass Photo ID Card (Mega Passes are non-transferable, non-refundable and all parties must be present at the time of purchase) which will then be used to redeem a special wristband for EACH DAY.

Mega Passes are only available for purchase at the Glendale Heights Sports Hub during normal registration hours located at 250 Civic Center Plaza through Friday, July 12th. Mega pass wristbands are honored on the following days and times:

Wednesday: 6:00 pm – 11:00 pm
Thursday: 6:00 pm – 11:00 pm
Friday: 6:00 pm – Midnight
Saturday: 3:00 pm – Midnight
Sunday: 3:00 pm – 7:00 pm

Note: Certain rides have height restriction and may need tickets along with the wristband.

Glendale Heights Fest Hours

Wednesday, July 10	6:00 pm – 11:00 pm
Thursday, July 11	6:00 pm – 11:00 pm
Friday, July 12	6:00 pm – Midnight
Saturday, July 13	3:00 pm – Midnight
Sunday, July 14	3:00 pm – 11:00 pm

State Curfew for anyone under 17 years of age is 11:00 pm on Wednesday, Thursday and Sunday, and midnight on Friday and Saturday. Anyone under the age of 17 at the Glendale Heights Fest after Curfew must be with a parent or guardian, or will be in violation of curfew. The Curfew laws will be enforced by the Glendale Heights Police Department.

Print at Home

Buy and print your wristband vouchers at home! Avoid the long lines and buy and print your wristband vouchers before coming.

Visit www.glendaleheightsfest.com for more information!

For more information on Glendale Heights Fest, entertainment, food vendors and more, call Village Hall at 630.260.6000 or visit www.glendaleheightsfest.com

Safety First at
Glendale Heights Fest

To keep all Glendale Heights Fest visitors safe, we have fenced in the entire Glendale Heights Fest grounds but there will be NO entrance fee. The following items will not be allowed on Fest grounds:

- Weapons
- Glass Bottles/Containers
- Illegal Substances
- Bicycles
- Outside Alcohol
- Animals/Pets (Except Service Animals)

NOTE: All bags, coolers and containers are subject to search. Bags will be checked prior to entering Glendale Heights Fest. Weapons and objects that appear to be weapons are strictly prohibited. Other items will be prohibited at the discretion of the gate security.

**Saturday, July 13
3:00 pm to Midnight**

Wristbands honored
3:00 pm - 7:00 pm

**Village of Glendale Heights
60th Anniversary Celebration!**

- 3:00 60th Anniversary Activities
- 7:00 Chasing Alice

Garbage/Recycling Holiday Schedule

In observance of the Independence Day Holiday, residents are advised of a change to their regular schedule for refuse and recycling collections. All garbage/recycling will be delayed by one day. For any questions, please contact Republic Services at 847.981.0091.

Helpful Information for Selling Your Home

If you decide to sell your home in Glendale Heights, here are some tips that will help you in the process! First off, you are required to obtain a real estate transfer stamp, which may be done by following these simple steps:

1. Submit a completed Real Estate Transfer Certificate of Compliance application a minimum of 21 days prior to closing, which is available online or at Village Hall.
2. Submit an inspection application fee of \$100.00 for a single family home.
3. An inspection will be scheduled when the application and fee is submitted.
4. When the inspection is conducted, you will be provided with a report of any items that need to be corrected. Corrections may include obtaining permits as determined in the inspection. You may make the corrections and have a re-inspection, or the purchaser may sign a Guarantee of Compliance and post an escrow to guarantee that the work will be completed within 30 days.
5. A plat of survey of the property less than a year old must be submitted as part of the inspection process.
6. Once the inspection passes or the Guarantee of Compliance is signed and escrow posted, you may submit an application for the Transfer Stamp along with the following documentation:
 - a. Payment of the transfer tax prior to transferring title to or assigning the beneficial interest in a land trust. The fee is \$3.00 for every \$1,000.00 of value or fraction thereof.
 - b. A receipt of payment of the final water bill.
 - c. A copy of the original deed, which may be signed by your attorney.
 - d. A copy of the P-TAX State Declaration, which may be signed by your attorney.

Once the fees and taxes are paid and the documentation is submitted, the Village will issue the tax stamp. For more information on this process, please contact Community Development at 630.260.6030.

House/Garage Sale Permits

Homeowners are reminded that per Village Ordinance a permit is required to hold a House or Garage sale. A fee of \$10 is collected at the time of the application, along with homeowner's signed Permit Consent form. Please call 630.260.6000 with any questions.

Village Meetings

Regularly scheduled meetings are held at the Civic Center, unless otherwise noted. Call the Village Hall at 630.260.6000 for more information.

Board of Police Commissioners

2nd Wednesday of each month, 7:00 pm

*Village Board and Committee of the Whole Meetings (C.O.W.)

1st & 3rd Thursday of each month, 7:30 pm

Youth Commission

2nd Wednesday of each month, 7:30 am
Glendale Lakes Golf Club

* The Village Board & C.O.W. meetings may be viewed the day following the meeting at 1:00 pm and 6:00 pm on GHTV (channel 6 for Comcast & W.O.W, channel 99 for AT&T) or on YouTube at www.youtube.com/GlendaleHtsTV.

Water rate increases (Continued from p. 3)

How will it affect your bill?

The revised rate structure affects customers based on the amount of water consumed and the type of customer, i.e. residential and nonresidential.

The new rate structure will increase the average residential customer's bill by only \$4.00/month starting July 1, 2019 (reflected in your August bill).

Detailed rate information is as follows:

Residential Rates		
	May 1, 2019	July 1, 2019
Water Purchased	\$4.97 per 1,000 gals	\$4.97 per 1,000 gals
Local Water Delivery	\$2.77 per 1,000 gals	\$2.77 per 1,000 gals
Sewer	\$4.89 per 1,000 gals	\$4.89 per 1,000 gals
Debt Service	\$7.50 (flat fee per month)	\$10.00 (flat fee per month)
Capital Infrastructure Fee	\$1.50 (flat fee per month)	\$3.00 (flat fee per month)
Average Customer bill at 7,000 gallons	\$97.41	\$101.41

Commercial and Industrial customers will see a monthly increase of \$8.00 and Non-Profit customers will see a monthly increase of \$4.00.

What can customers do if they are experiencing financial difficulty and are unable to pay their bill?

Most importantly and to avoid additional cost in late fees and the potential of service disconnection, do not ignore your bill. The Village will make payment arrangements for past due balances. If you have any questions regarding payment arrangements, please contact the Water Billing Division at 630.260.6010.

DID YOU KNOW

\$12

Average Cost for a 5-gallon jug of water

\$0.06

Cost to fill this same jug with Glendale Heights tap water in 2018

\$0.07

Cost to fill this same jug with Glendale Heights tap water in 2019

did you know

Of the six surrounding communities, Glendale Heights was, and will still be, the third lowest rate!

DID YOU KNOW?

The Glendale Heights Water Pollution Control Facility has been identified as an exemplary water treatment plant having been awarded the Outstanding Illinois Class A Wastewater Treatment Plant of the Year in 2013!

See the next pages for the full Annual Drinking Water Quality Report!

Annual Drinking Water Quality Report

Village of Glendale Heights

For the period of January 1, 2018 to December 31, 2018

ANNUAL DRINKING WATER QUALITY REPORT VILLAGE OF GLENDALE HEIGHTS For the period of January 1, 2018 to December 31, 2018

This report is intended to provide you with important information about your drinking water and the efforts made by the Village of Glendale Heights Water Division to provide safe drinking water. The source of drinking water distributed by the Village is purchased from the DuPage Water Commission.

For more information regarding this report, contact:

Name: Jeff McCumber, Utilities Division Manager- Facility # IL 0430400

Phone: (630) 260 6040

We are pleased to report that The Village of Glendale Heights' drinking water had no violations or exceeded any other water quality standard. No drinking water quality violations were recorded during 2018.

We want our valued customers to be informed about their water quality. If you would like to learn more, please feel welcome to attend any of our regularly scheduled Village Board meetings every first and third Thursday of the month. The meetings are held at Village Hall, 300 Civic Center Plaza, and begin at 7:30 p.m. You can also attend the DuPage Water Commission meetings. For information on when their meetings are scheduled, please call (630) 834 0100. The source water assessment for our supply has been completed by the Illinois EPA. If you would like a copy of this information, please stop by Village Hall or call our Utilities Division Manager at (630) 260 6040. To view a summary version of the completed Source Water Assessments, including Importance of Source Water; Susceptible to Contamination Determination; and documentation/recommendation of Source Water Protection Efforts, you may access the Illinois EPA website at <http://www.epa.state.il.us/cgi-bin/wp/swap-fact-sheets.pl>

Source of Drinking Water

Lake Michigan water is supplied to the DuPage Water Commission from the City of Chicago. The City does all water filtration and treatment. The DuPage Water Commission adds chlorine and delivers the water through a series of water mains and storage tanks. The Village of Glendale Heights then delivers the water through several pump stations, storage tanks and water mains. The Village does not add chemicals to the water, but has the capabilities to do so.

The Illinois EPA considers all surface water sources of community water supply to be susceptible to potential pollution problems. The very nature of surface water allows contaminants to migrate into the intake with no protection only dilution. This is the reason for the mandatory treatment for all surface water supplies in Illinois. Chicago's off shore intakes are located at a distance that shoreline impacts are not usually considered a factor on water quality. At certain times of the year, however, the potential for contamination exists due to wet weather flows and river reversals. In addition, the placement of the crib structures may serve to attract waterfowl, gulls, and terns that frequent the Great Lakes area, thereby concentrating fecal deposits at the intake and thus compromising the source water quality. Conversely, the shore intakes are highly susceptible to storm water run-off, marinas and shoreline point sources due to the influx of ground water to the lake.

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.
- Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline 1 (800) 426 4791.

In order to ensure that tap water is safe to drink, EPA prescribes regulations, which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline 1 (800) 426 4791.

**CITY OF CHICAGO, DEPARTMENT OF WATER MANAGEMENT
SOURCE WATER ASSESSMENT SUMMARY
FOR THE 2018 CONSUMER CONFIDENCE REPORT (CCR)**

Source Water Location

The City of Chicago utilizes Lake Michigan as its source water via two water treatment plants. The Jardine Water Purification Plant serves the northern areas of the City and suburbs, while the South Water Purification Plant serves the southern areas of the City and suburbs. Lake Michigan is the only Great Lake that is entirely contained within the United States. It borders Illinois, Indiana, Michigan, and Wisconsin, and is the second largest Great Lake by volume with 1,180 cubic miles of water and third largest by area.

Source Water Assessment Summary

The Illinois EPA implemented a Source Water Assessment Program (SWAP) to assist with watershed protection of public drinking water supplies. The SWAP inventories potential sources of contamination and determined the susceptibility of the source water to contamination. The Illinois EPA has completed the Source Water Assessment Program for our supply. Further information on our community water supply's Source Water Assessment Program is available by calling the City of Chicago, Department of Water Management at 312-744-6635.

Susceptibility to Contamination

The Illinois EPA considers all surface water sources of community water supply to be susceptible to potential pollution problems. The very nature of surface water allows contaminants to migrate into the intake with no protection only dilution. This is the reason for mandatory treatment of all surface water supplies in Illinois. Chicago's offshore intakes are located at a distance that shoreline impacts are not usually considered a factor on water quality. At certain times of the year, however, the potential for contamination exists due to wet-weather flows and river reversals. In addition, the placement of the crib structures may serve to attract waterfowl, gulls and terns that frequent the Great Lakes area, thereby concentrating fecal deposits at the intake and thus compromising the source water quality. Conversely, the shore intakes are highly susceptible to storm water runoff, marinas and shoreline point sources due to the influx of groundwater to the lake.

Further information on the our community water supply's Source Water Assessment Program is available by calling the City of Chicago, Department of Water Management at 312-744-6635.

2018 Voluntary Monitoring

The City of Chicago has continued monitoring for Cryptosporidium, Giardia and E. Coli in its source water as part of its water quality program. To date, Cryptosporidium has not been detected in these samples, but Giardia was detected in 2010 in one raw lake water sample collected in September 2010. Treatment processes have been optimized to provide effective barriers for removal of Cryptosporidium oocysts and Giardia cysts in the source water, effectively removing these organisms in the treatment process. By maintaining low turbidity through the removal of particles from the water, the possibility of Cryptosporidium and Giardia organisms getting into the drinking water system is greatly reduced.

In 2018, CDWM has also continued monitoring for hexavalent chromium, also known as chromium-6. USEPA has not yet established a standard for chromium-6, a contaminant of concern, which has both natural and industrial sources. Please address any questions or concerns to DWM's Water Quality Division at 312-742-7499. Data reports on the monitoring program for chromium-6 are posted on the City's website, which can be accessed at the following address below:

http://www.cityofchicago.org/city/en/depts/water/supp_info/water_quality_resultsandreports/city_of_chicago_emergincontaminantstudy.html

**2018 WATER QUALITY DATA
DATA TABULATED BY CHICAGO DEPARTMENT OF WATER MANAGEMENT
0316000 CHICAGO**

-Definition of Terms-

Maximum Contaminant Level Goal (MCLG):

The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety.

Maximum Contaminant Level (MCL):

The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Highest Level Detected:

This column represents the highest single sample reading of a contaminant of all samples collected in 2018.

Range of Detections:

This column represents a range of individual sample results, from lowest to highest that were collected during the CCR calendar year.

Date of Sample:

If a date appears in this column, the Illinois EPA requires monitoring for this contaminant less than once per year because the concentrations do not frequently change. If no date appears in the column, monitoring for this contaminant was conducted during the Consumer Confidence Report calendar year.

Treatment Technique (TT):

A required process intended to reduce the level of a contaminant in drinking water.

N/A:

Not applicable

Detected Contaminants

Contaminant (unit of measurement) Typical Source of Contaminant	MCLG	MCL	Highest Level Detected	Range of Detections	Violation	Date of Sample
<u>TURBIDITY DATA</u>						
Turbidity (NTU/Lowest Monthly % ≤ 0.3 NTU) Soil runoff	N/A	TT (Limit: 95% ≤ 0.3 NTU)	(Lowest Monthly %) 100.0%	100.0% - 100.0%		
Turbidity (NTU/Highest Single Measurement) Soil runoff	N/A	TT (Limit 1 NTU)	0.19	N/A		
<u>INORGANIC CONTAMINANTS</u>						
Barium (ppm) Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits	2	2	0.0214	0.0203 - 0.0214		
Nitrate (As Nitrogen) (ppm) Runoff from fertilizer use; Leaching from septic tanks, Sewage, Erosion of natural deposits	10	10	0.42	0.31 - 0.42		
Total Nitrate & Nitrite (As Nitrogen) (ppm) Runoff from fertilizer use; Leaching from septic tanks, sewage, Erosion of natural deposits	10	10	0.42	0.31 - 0.42		

TOTAL ORGANIC CARBON

TOC [Total Organic Carbon]

The percentage of Total Organic Carbon (TOC) removal was measured each month and the system met all TOC removal requirements set by the IEPA.

Contaminant (unit of measurement) Typical Source of Contaminant	MCLG	MCL	Highest Level Detected	Range of Detections	Violation	Date of Sample
<u>UNREGULATED CONTAMINANTS</u>						
Sulfate (ppm) Erosion of naturally occurring deposits	N/A	N/A	27.6	26.3 - 27.6		
Sodium (ppm) Erosion of naturally occurring deposits; Used as water softener	N/A	N/A	8.89	8.14 - 8.89		
<u>STATE REGULATED CONTAMINANTS</u>						
Fluoride (ppm) Water additive, which promotes strong teeth	4	4	0.86	0.64 - 0.86		
<u>RADIOACTIVE CONTAMINANTS</u>						
Combined Radium (226/228) (pCi/L) Decay of natural and man-made deposits.	0	5	0.84	0.50 - 0.84		02/11/2014
Gross Alpha excluding radon and uranium (pCi/L) Decay of natural and man-made deposits.	0	15	6.6	6.1 - 6.6		02/11/2014

2018 Water Quality Data Table Footnotes

Turbidity

Turbidity is a measure of the cloudiness of the water. We monitor it because it is a good indicator of water quality and the effectiveness of our filtration system and disinfectants.

Unregulated Contaminants

A maximum contaminant level (MCL) for this contaminant has not been established by either state or federal regulations, nor has mandatory health effects language. The purpose for monitoring this contaminant is to assist USEPA in determining the occurrence of unregulated contaminants in drinking water, and whether future regulation is warranted.

Sodium

There is no state or federal MCL for sodium. Monitoring is required to provide information to consumers and health officials who have concerns about sodium intake due to dietary precautions. If you are on a sodium-restricted diet, you should consult a physician about the level of sodium in the water.

Fluoride

Fluoride is added to the water supply to help promote strong teeth. The Illinois Department of Public Health recommends an optimal fluoride level of 0.7 mg/l with a range of 0.6 mg/l to 0.8 mg/l.

Unit of Measurement

ppm	Parts per million, or milligrams per liter	%≤0.3NTU	Percent of samples less than or equal to 0.3 NTU
ppb	Parts per billion, or micrograms per liter	pCi/L	Picocuries per liter, used to measure radioactivity
NTU	Nephelometric Turbidity Unit, used to measure cloudiness in drinking water		

**Village of Glendale Heights
2018 Water Quality Data**

NO DRINKING WATER QUALITY VIOLATIONS WERE RECORDED DURING 2018

Regulated Detected Contaminants

Contaminant	Maximum Contaminant Level Goal	Total Coliform Maximum Contaminant Level	Highest No. of Positive	Fecal Coliform or E. Coli Maximum Contaminant Level	Total No. of Positive E. Coli or Fecal Coliform Samples	Violation	Likely Source of Contamination
Coliform Bacteria	0	5% of monthly samples are positive	0	-	0	N	Naturally present in the environment

Lead and Copper

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. We cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking.

If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at [http:// www.epa.gov/safewater/lead](http://www.epa.gov/safewater/lead).

Definitions:

Action Level Goal (ALG): The level of a contaminant in drinking water below which there is no known or expected risk to health. ALGs allow for a margin of safety.

Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Lead and Copper	Date Sampled	MCLG	Action Level (AL)	90th Percentile	# Sites Over AL	Units	Violation	Likely Source of Contamination
Copper	2017	1.3	1.3	0	0	ppm	N	Erosion of natural deposits; Leaching from wood preservatives; Corrosion of household plumbing systems
Lead	2017	0	15	0	0	ppb	N	Corrosion of household plumbing systems; Erosion of natural deposits

Water Quality Test Results

Definitions: The following tables contain scientific terms and measures, some of which may require explanation.

Avg: Regulatory compliance with some MCL's are based on running annual average of monthly samples.

Level 1 Assessment: A Level 1 assessment is a study of the water system to identify potential problems and determine (if possible) why total coliform bacteria have been found in our water system.

Level 2 Assessment: A Level 2 assessment is a very detailed study of the water system to identify potential problems and determine (if possible) why an E. Coli MCL violation has occurred and /or why total coliform have been found in our water system on multiple occasions.

Maximum Contaminant Level or MCL: The highest level of a contaminant that is allowed in drinking water. MCL's are set as close to the MCLG's as feasible using the best available treatment technology.

Maximum Contaminant Level Goal or MCLG: The level of a contaminant in drinking water, which there is no known or expected risk to health. MCLG's allow for a margin of safety.

Maximum Residual Disinfectant Level or MRDL: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Maximum Residual Disinfectant Level Goal or MRDLG: The level of a contaminant in drinking water, which there is no known or expected risk to health. MRDLG's do not reflect the benefits of the use of disinfectants to control microbial contaminants.

na: Not Applicable

mrem: millirems per year (a measure of radiation absorbed by the body)

ppb: micrograms per liter or parts per billion – or one ounce in 7,350,000 gallons of water.

ppm: milligrams per liter or parts per million – or one ounce in 7,350 gallons of water

Treatment Technique or TT: A required process intended to reduce the level of a contaminant in drinking water.

Regulated Contaminants

Disinfectants & Disinfectant By-Products	Collection Date	Highest Level Detected	Range of Levels Detected	MCLG	MCL	Units	Violation	Likely Source of Contamination
Chlorine	12/31/2018	0.5	0.4 - 0.6	MRDLG = 4	MRDL=4	ppm	N	Water additive used to control microbes.
Haloacetic Acids (HAA5)	2018	20	9.28 - 30	No goal for the total	60	ppb	N	By-product of drinking water disinfection
Total Trihalomethanes (TTHM)	2018	43	15.06 – 58.8	No goal for the total	80	ppb	N	By-product of drinking water disinfection

GLENDALE HEIGHTS STAND-BY WELLS

The Village of Glendale Heights' Stand-by Wells have been maintained in accordance with IEPA testing requirements and standards and are for emergency purposes only. The four Well sites are operated and tested without supplementing the Lake Michigan Water that we purchase and distribute from the DuPage Water Commission.

Inorganic Compounds are tests performed for stand-by wells, **which are not connected** to the distribution system and are for emergency purposes only.

*Arsenic –While your drinking water meets EPA standards for arsenic, it does contain low levels of arsenic. EPA's standard balances the current understanding of arsenic's possible health effects against the cost of removing arsenic from drinking water. The EPA continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

INORGANIC CONTAMINANTS

Element	Collection Date	Highest Level Detected	Range of Level Detected	MCLG	MCL	Units	Violation	Likely Source of Contamination
Arsenic*	01/17/2017	6.74	0.571 - 6.4	0	10	ppb	N	Erosion of natural deposits; Runoff from orchards; Runoff from glass and electronic production wastes.
Barium	01/17/2017	0.0334	0.0203 - 0.0334	2	2	ppm	N	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits.
Fluoride	01/17/2017	0.66	0.48 – 0.66	4	4.0	ppm	N	Erosion of natural deposits; Water additive promotes strong teeth; Discharge from fertilizer and aluminum factories.
Iron	01/17/2017	0.894	0 - 0.894	0	1.0	ppm	N	This contaminant is not currently regulated by the USEPA. However, the state regulates. Erosion of natural deposits.

Nitrate (measured as nitrogen)	2018	0.104	0.104 – 0.104	10	10	ppm	N	Runoff from fertilizer use, Leaching from septic tanks, sewage; Erosion of natural deposits.
Sodium	01/17/2017	45.1	8.56 -45.1	0	0	ppm	N	Erosion from naturally occurring deposits: used in water softener regeneration.
Sulfate	2017	154	15.6 - 154	250	250	ppm	N	Sulfate is a substance that occurs naturally in drinking water.

** The MCL and MCLG for Nickel were remanded on February 9th, 1995. This means that while many water suppliers continue to monitor nickel levels in their water, there is currently no EPA legal limit on the amount of nickel in drinking water. The EPA is considering the limit on nickel.

Radioactive Contaminants	Collection Date	Highest Level Detected	Range of Levels Detected	MCLG	MCL	Units	Violation	Likely Source of Contamination
Combined Radium 226/228	2017	0.8	0 – 0.8	0	5	pCi/L	N	Erosion of natural deposits.
Gross Alpha excluding radon and uranium	01/17/2017	1.3	0 – 1.3	0	15	pCi/L	N	Erosion of natural deposits.

Glendale Heights UCMR 3 Testing

In 1996 amendments to the Safe Drinking Water Act (SDWA) require that once every five years, the U.S. Environmental Protection Agency (EPA) issue a new list of no more than 30 unregulated contaminants to be monitored by public water systems (PWSs). The Unregulated Contaminant Monitoring Rule (UCMR) provides EPA and other interested parties with scientifically valid data on the occurrence of contaminants in drinking water. These data serve as a primary source of occurrence and exposure information that the agency uses to develop regulatory decisions.

The Village of Glendale Heights is classified under the UCMR 3 as an Assessment Monitoring (List 1) community, and is monitoring for 21 chemicals in 2015 as a part of the UCMR monitoring requirements established in 1996 by the U.S. EPA. These results are seen in the table below:

UCMR3 COMPLIANCE REPORTING

Element	Collection Date	Highest Level Detected	Range of Levels Detected	MCLG	MCL	Units	Likely Source of Contamination
Chromium	2015	0.5	0.3 - 0.5	100	100	ppb	Naturally-occurring element; used in making steel and other alloys
Molybdenum	2015	1.1	0 - 1.1	NA	NA	ppb	Naturally-occurring element found in ores and present in plants, animals and bacteria; commonly used form molybdenum trioxide used as a chemical reagent.
Strontium	2015	127.6	118.2-127.6	NA	NA	ppb	Naturally-occurring element; has been used in cathode-ray tube TVs to block x-ray emissions
Vanadium	2015	0.30	0.2-0.3	NA	NA	ppb	Naturally-occurring metal; vanadium pentoxide is used as a catalyst and a chemical intermediate
Chromium-6 or Hexavalent Chromium	2015	0.20	0.17 - 0.20	NA	NA	ppb	Naturally-occurring element; chromium - 3 or - 6 forms are used for chrome plating, dyes and pigments, leather tanning, and wood preservation.

**AS REPORTED BY THE DUPAGE WATER COMMISSION - (630) 834-0100
2018 Regulated Contaminants Detected**

Coliform Bacteria

Maximum Contaminant Level Goal	Total Coli form Maximum Contaminant Level	Highest No. of Positive	Fecal Coli form or E. Coli Maximum Contaminant Level	Total No. of Positive E.Coli or Fecal Coli form Samples	Violation	Likely Source of Contamination
0	0 positive monthly sample	0	Fecal Coliform or E. Coli MCL: A routine sample and a repeat sample are total coliform positive, and one is also fecal coliform or E. Coli positive	0	No	Naturally present in the environment

Regulated Contaminants

Disinfectants & Disinfection By-Products	Collection Date	Highest Level Detected	Range of Levels Detected	MCLG	MCL	Units	Violation	Likely source Of Contamination
Chlorine	9/8/2018	1.09	0.71 - 1.09	4	4	ppm	N	Water additive used to control microbes
Total Haloacetic Acids (HAA5)	2018	18	15.4 – 17.9	N/A	60	ppb	N	By-product of drinking water chlorination
Total Trihalomethanes (TTHMs)	2018	27	24.2 -27.4	N/A	80	ppb	N	By-product of drinking water chlorination

Not all sample results may have been used for calculating the highest level detected because some results may be part of an evaluation to determine where compliance sampling should occur in the future.

Information on Lead

If present, elevated levels of lead can cause serious health problems, especially for pregnant women or young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. DuPage Water Commission is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at:

<http://www.epa.gov/safewater/lead>.

Educational statements and conservation strategies for surface water may be obtained at

<http://www.preservingeverydrop.org/>

Note: The state requires monitoring of certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Therefore, some of this data may be more than one-year-old. **MCL (Maximum Contaminant Level):** The highest level of a contaminant that is allowed in drinking water. MCL's are set close to the MCLGs as feasible using the best available treatment technology. **MCLG (Maximum Contaminant Level Goal):** The level of contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety. **AL (Action Level):** The concentration of a contaminant which, if exceeded triggers treatment or other requirements which a water system must follow. ppm: parts per million, ppb: parts per billion, ppt: parts per trillion, pCi/l: picoCuries per liter (measurement of radioactivity)

2018 Water Quality Test Results:

Definitions: The following tables contain scientific terms and measures, some of which may require explanation.

Maximum Contaminant Level, (MCL):

The highest level of a contaminant that is allowed in drinking water. MCL's are set as close to the Maximum Contaminant Level Goal as feasible, using the best available treatment technology.

Maximum Contaminant Level Goal, (MCLG):

The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety.

mg/l: milligrams per litre or parts per million- or one ounce in 7,350 gallons of water.

ug/l: micrograms per litre or parts per billion- or one ounce in 7,350,000 gallons of water.

na: not applicable. Avg: Regulatory compliance with some MCL's are based on running annual average of monthly samples.

Maximum Residual Disinfectant Level (MRDL):

The highest level of disinfectant allowed in drinking water.

Maximum Residual Disinfectant Level Goal (MRDLG):

The level of disinfectant in drinking water below which there is no known or expected risk to health. MRDLG's allow for a margin of safety.
