Filled with fun, food and fireworks, Glendale Heights Fest kicks off Wednesday, July 11 and runs through Sunday, July 15 at Camera Park. Take in the carnival and rides, along with exciting entertainment and fantastic food booths.

Enjoy a breathtaking display of fireworks at dusk on Wednesday, July 11 and again on Sunday, July 15. Plan to spend a fun-filled time at Glendale Heights Fest with delicious food and entertainment for the entire family.

Glendale Heights Fest Photo Contest
Calling all photographers! We want to see your best photos from Glendale Heights Fest 2018! Use #GHFest2018 on Instagram and Facebook, and we will choose our favorites to highlight on our social media! Plus, our favorite photo will be featured in future publications and recognized at a Village Board Meeting!
Questions? Call David at 630.909.5348!

National Night Out
Tuesday, August 7 • 6:00 pm to 8:00 pm • Civic Center Campus • 300 Civic Center Plaza

National Night Out Against Crime is celebrated annually on the 1st Tuesday in August by Law Enforcement Agencies across the United States. The Glendale Heights Police Department invites you and your family to join them and show your support for crime and drug prevention in Glendale Heights.

This free event is open to all residents and is meant to raise awareness about crime prevention in our community. The Glendale Heights Police Department has coordinated an evening of fun featuring a police dunk tank, games, face painting, a visit from McGruff the crime fighting mascot, and emergency apparatus demonstrations by the Glenside and Bloomingdale Fire Protection Districts. During the event, Heartland Blood Center will be at the Village Hall Training Room accepting blood donations from 3:00 pm to 7:00 pm.

Grilled hot dogs, hamburgers, soft drinks and snacks will be offered free of charge, and served by Glendale Heights Police Officers, Village Officials and the Glendale Heights Junior Woman’s Club. We hope you will join us.

For more information, contact Sgt. Kelley Darre at 630.909.5445, or the Police non-emergency number at 630.260.6070.
Dear Residents,

Sincerely,

Linda Jackson
Village President

Coffee with the Mayor & Board

Coffee with the Mayor & Board is held on the first Saturday of each month* from 10:00 am to noon at the Center for Senior Citizens. The next Coffee with the Mayor & Board is scheduled for August 4. There is no Coffee in July. If you are unable to attend and have a comment, suggestion or question, please call the Mayor's Office at 630.909.5303.

*Subject to Change

Holiday Refuse & Recycling Services Schedule

In observance of the Independence Day Holiday, residents are advised of a change to their regular schedule for refuse and recycling collections. Republic Services will follow their Holiday pick up schedule. All pick up days are delayed by one day for all customers who are scheduled on the day of, or following a holiday. For service related questions, please call Republic Services at 847.981.0091.
Step inside the front door and step back in time to the way things were 100 years ago, right down to the working pump on the kitchen sink, a wood burning stove in the kitchen, oil burning light fixtures, and the player piano in the front parlor. The attached exhibit hall is devoted to the display of the history of Glendale Heights, from the original settlers who arrived in the 1830's, to the incorporation of the Village in 1959, and its growth and development over the past 50 years. If you love the Victorian era, this is something you will want to experience. Bring the kids along to see the working train set and farm land exhibit, and don’t forget your camera. The Historic House is a wonderful “old place” in our community for everyone to enjoy!

Historic House Tours
August 11 and September 8 • 10:00 am - 1:00 pm
311 Windy Point Drive

Pakistan's Independence Day Celebration
Saturday, August 4 • 5:00 pm to 11:00 pm • Camera Park

Don’t miss out on this special celebration honoring Pakistani Independence. There will be fun for all ages including a variety of entertainment. Formal introduction of dignitaries will take place at 6:30 pm followed by more great music and entertainment.

For vendor or sponsorship information, please call Sohail Bari at 630.709.9467. For the cultural program, please contact Farah Bari at farahbari93@gmail.com.

Glendale Heights Foundation
The Glendale Heights Foundation (GHF) is a non-profit organization incorporated in 2003 to provide limited one-time emergency financial assistance to Village residents. The Foundation does not provide rent or mortgage payment aid. All assistance requests must be submitted in writing, including name, address, details about the emergency circumstances, and financial assistance requested. A GHF form can be downloaded from the Village website to submit a request for assistance from the Foundation. Send requests to: Glendale Heights Foundation, P.O. Box 5280, Glendale Heights, IL 60139. Tax deductible donations are always welcome and graciously accepted.

Looking Ahead!

September 1 - Coffee with the Mayor and Board
September 3 - Final Day at GH₂O
September 11 - Patriot Day Candlelight Ceremony
September 13 - 23 - Glendale Heights Oktoberfest
September 16 - Show & Shine Car Show and Community Garage Sale
September 29 - Fishing Derby/Harvest Fest

Informed Delivery by the United States Postal Service
The United States Postal Service (USPS) now offers informed delivery straight to your email! Learn about what pieces of mail you will be receiving straight to your inbox. Informed Delivery will notify you by email of your daily mail with images being delivered each day. This is a free service! Note: This is not a Village program and is offered by the United States Postal Service. For any questions or more information, please visit https://informeddelivery.usps.com.
Spartans
Football and Cheerleading

The Football season is right around the corner! Now is your chance to register in time for summer practices to begin. No experience needed! Join the Spartan Family today!

Flag Football: $125/$135/$150 (r/nr/sdr)
Tackle Football / Cheerleading: $200/$210/$225 (r/nr/sdr)

Each family is required to participate in a $75 raffle ticket fundraiser.

Camp Kinie: Machu Picchu
This camp is perfect for our youngest campers who are not quite old enough for regular summer camp. We invite your preschool aged children to get out of the house and into a program that will build a foundation for school in a fun and nurturing environment. (Must be at least 4 years old)

Camp Taj Mahal: Entering Grades 1-2
Camp Pyramids of Giza: Entering Grades 3-4

PATH Summer Camp
Let’s Explore!

Vamos a explorar - 让我们一起探索吧 - Explorons - Esploriamo - Tayo na

Each week, campers will get their passport stamped and explore new cultures from different locales, exploring music, sports, foods, and much more along the way. Join us as we travel as far as the Amazon, Africa and Antarctica!

Which camp is right for your child?

Camp Babylon: Entering Grades 5-6
Step Camp Olympus: Entering Grades 6-8
Participants develop leadership and social skills in our camp designed to foster self-discovery and multicultural understanding. Activities include leading camp projects, job shadowing, and service projects.

Note: Grades listed correspond to Fall 2018 enrollment.

Preschool Family Fun Fair
Wednesday, August 22
6:00 pm - 8:00 pm

Come for a night of fun and meet our qualified preschool teachers. Enjoy music, activities, storytelling, art, crafts and much more.

Rentals at the Sports Hub

No matter the occasion, the Sports Hub’s got you covered! From small rooms perfect for parties, to outdoor space in any of our beautiful parks, see how we can make your next special event one for the books!

Soccer all year long!

Register for three seasons of recreational soccer and save $30! Seasons include Fall Outdoor, Indoor Session 1, and Spring Outdoor. Uniforms are not included in this fee and must be purchased separately for $25.

Senior Fitness Programs
Did you know that an active membership at the Center for Senior Citizens gives you the option to participate in two different fitness programs?

Walk a Mile in the Morning
Every Tuesday and most Thursdays • 9:30 am - 10:00 am
Join us inside the Center for Senior Citizens Community Room for a great workout at your own speed and with great music!

Forever Fit (Ages 60 & up)
Mondays & Wednesdays • 10:00 am - 11:00 am
Join us at the Sports Hub for an hour workout with our certified fitness instructor. Must wear gym shoes and comfortable clothes. Register at the Center for Senior Citizens.

Lunch at the Center
On Monday, Wednesday and Friday individuals that are 60 or better are welcome to take part in the Senior Nutrition Program. The DuPage Senior Citizen Council (DSCC) has operated its county-wide Senior Nutrition Program since 1983. The Senior Nutrition Program at the Center provides meals with socialization and added possibility of education and entertainment. Lunches are:

- Deli Style – Monday at 11:30 am • Hot Meals – Wednesdays after BINGO and Friday’s at 11:30 am

Once a month, DSCC will create a cultural event that celebrates a different heritage. Seniors are invited for lunch to learn more about other cultures or just to share their own heritage with others.

Cost: $3.50 Suggested Donation

Sip and Paint
Tuesday, July 10
1:30 pm
Do you enjoy a tropical oceanside view? Create one! Lynn Kim of Creative Home Parties will guide you in painting your very own tropical masterpiece. Wine available for purchase.

Cost: $5
Register By: 7/3

Freezer Friendly Meals
Thursday, August 23
2:00 pm
Cut the sodium of pre-packaged frozen dinners and make the most of your home-made meals. Chef Dave Esau will demonstrate freezer-friendly recipes that will provide portion sizes that fit your lifestyle. Samples will be provided.

Cost: $3
Register By: 8/16

Visit us online at www.glendaleheights.org
2018 Golf Season

Book your tee times online and pay no booking fees! Be sure to like us on Facebook to stay current with rates and specials at www.facebook.com/GlendaleLakesGolfClub.

Thank You!

19th Annual Charity Golf Classic

The Village of Glendale Heights, the Glendale Heights Chamber of Commerce, and FOP Lodge 52 thank everyone that helped to make the 19th Annual Glendale Heights Charity Golf Classic a great success as thousands of dollars were raised for the FOP Lodge 52 Community Enrichment Fund, the Glendale Heights Chamber of Commerce Scholarship Fund and Make-a-Wish Illinois. Without our sponsors and community support, this event would not be the success it has been over the years.

Summer Scramble

Sunday, July 15th
9:00 am Shotgun Start
$340 per four person team

Register for the 3rd annual Summer Scramble! Price includes golf, cart, breakfast, lunch, dinner and prizes!
Registration is now open. To register, call 630.260.0018 or visit www.glendalelakes.com

2019 Wedding Bookings

2019 is already starting to book up for weddings! Meet with our professional banquet coordinators and let us help you have the perfect event! Reserve your date by calling 630.260.0095

Private Golf Lessons

2018 Private Golf Lessons are available for groups up to 4 golfers. Learn the rules of the game, etiquette, putting, chipping, and the full swing. Private lessons offer the opportunity for one-on-one focused learning. To schedule your lesson, please call 630.260.0018 and ask for Steve!

Pro Tip!

Know When to Replace Your Grips

Grips on your golf clubs should be replaced every 40 rounds or every 30 rounds if you’re spending a considerable amount of time at the practice range! Regardless of rounds played, a grip should always be replaced at the first sign of noticeable wear, including:

- Smooth, hard surfaces
- Cracks
- Shiny patches
- Wear spots, especially where the thumbs make contact
- Faded or bare spots on grips that have been painted or have logos
- Complete loss of tack
- If the stock grips on your clubs aren’t the right size

For more tips and future golf lessons, contact our pro shop at 630.260.0018!
Public Works Department

630.260.6040 • www.glendaleheights.org/PW

Water Conservation
Residents, property owners, renters, or property managers are reminded that on May 1st, the Village of Glendale Heights began its Outdoor Water Usage Schedule for water conservation. Persons or entities owning or controlling property in the Village may use water for outdoor water sprinkling and/or other large consumption purposes on designated days and times. Unless otherwise provided, the following outdoor water usage schedule shall apply:
• Outdoor water use is permitted between 6:00 am - 10:00 am & between the hours of 6:00 pm - 10:00 pm.
• Odd number street addresses are permitted to water on odd days of the month.
• Even number street addresses are permitted to water on even days of the month.

Street Division
Motorists traveling Glendale Heights’ roads are asked to recognize the importance of slowing down in work zones. Motorists should drive with focus as they approach, enter, and travel through work zones, for their own safety and that of their passengers, other drivers, pedestrians, construction workers, utility workers, and public safety professionals.

Distracted driving contributes to 25% of all police reported traffic crashes according to the National Highway Traffic Safety Administration (NHTSA). Be patient as most of the time work zones require lane closures. Remain alert in case you need to slow down or stop due to traffic or construction work.

Water Pollution Control Facility Receives new Pista Grit System
This past April, the Water Pollution Control Facility replaced its current Pista Grit Removal System with a new and updated version of the system. The Pista Grit System is vital to the Plant as it removes sand, gravel and other heavy organic material from the incoming waste stream. This significantly protects the mechanical equipment from abrasion and abnormal wear. It also reduces blockages in the treatment plant process caused by grit settling out in the pipes. Grit can also settle out in the Aeration Tank and Digester making it necessary to take the tanks off line to remove the grit. The original system was installed in 1988 and was past its life expectancy.

Questions about Sod?
In the Village’s MFT Road Program, the contractor lays down sod to repair damage to lawns and parkways caused by construction. You may notice some streets in this or in a future years’ Road Program not getting sod during the months of July and August. This is an IDOT Specification, because the extreme heat of the summer makes the sod less likely to survive planting.
Also, the asphalt surface layer for road construction might be delayed due to waiting for sod as well. Landscapers putting sod on a new road tends to scratch and dirty a new surface. For this reason, the Village waits for the sod to be installed before the final asphalt surface for roads paved in July and August. In the end, it’s worth the wait!

Summer Tire Tips
Checking your tires is crucial in the summer. Long road trips with heavy loads and high temperatures can stress your tires to the max. Make sure that you have the correct amount of tire pressure in your tires at all times.
Also, don’t forget to check the spare. Over time, the spare loses air and won’t be much use if flat.
As you know, the summer months can bring extremely hot temperatures and dangerously high humidity to the area. Small children, senior citizens, and persons suffering illness or disability are especially vulnerable to extreme heat and humidity. The Glendale Heights Police Department is asking residents to please check on their relatives, friends, and neighbors to ensure their well-being and safety. During these long hot summer days, please be reminded of the following tips for staying cool this summer:

- Be aware of the heat. Pay attention to it, and modify your activities appropriately
- Pay attention to your hydration status, and be sure to drink plenty of fluids
- Try to stay in relatively cool areas, even when outside. Many public places such as libraries, shopping malls and movie theatres are air conditioned.
- Avoid hot enclosed places, such as cars. Never leave children unattended in a car parked in the sun.
- Use a fan, if available
- Stay on the lowest floor of your building
- Eat well-balanced, light, regular meals
- Wear loose-fitting, lightweight, light-colored clothing
- Cover windows that receive a significant amount of sun with drapes or shades to help keep your house cool
- Weather stripping and proper insulation will keep cool air inside your home
- Cool beverages are good for cooling down the body, while alcoholic drinks can impair the body’s ability to regulate its temperature

Glendale Heights will activate a temporary cooling shelter to assist our community when weather conditions present such a need. For additional information about cooling shelters, please call the Police Department’s non-emergency number at 630.260.6070 and as a reminder, in ANY emergency you are encouraged to call 9-1-1 for immediate assistance. Have a safe, enjoyable and cool summer!
Fireworks are often used to mark special events and holidays. However, they are not safe in the hands of consumers. The Bloomingdale and Glenside Fire Protection Districts and the National Fire Protection Association (NFPA) are opposed to consumer use of fireworks, and the use of fireworks is illegal in Illinois!

Fireworks cause thousands of burns and eye injuries each year. Even sparklers burn hot enough to cause third-degree burns. People can enjoy the holidays if they remember the following:

• Fireworks cause an average of almost 20,000 reported fires per year
• In 2013, sparklers caused 41% of fireworks injuries
• Be safe. If you want to see fireworks, go to a public show put on by experts.
• Do not use consumer fireworks
• Keep a close eye on children at events where fireworks are used

For more information about fireworks safety or other safety information, visit our websites at www.glensidefire.org or www.bloomingdalefire.com.

HEAT STROKE TRAGEDIES PREVENTION
• Never leave children or pets alone in or around cars; not even for a minute.
• “Look Before You Lock” - Get in the habit of always opening the back door to check the back seat before leaving your vehicle. Make sure no child has been left behind.
• Create a reminder to check the back seat. Put something you will need like your cell phone, handbag, employee ID or brief case, etc., in the back seat so that you have to open the back door to retrieve that item every time you park.
• Keep a large stuffed animal in the child’s car seat. When the child is placed in the car seat, put the stuffed animal in the front passenger seat. It’s a visual reminder that the child is in the back seat.
• Make sure you have a strict policy in place with your childcare provider about daycare drop-off. Everyone involved in the care of your child should always be aware of their whereabouts. If your child will not be attending daycare as scheduled, it is the parent’s responsibility to call and inform the childcare provider. If your child does not show up as scheduled, and they have not received a call from the parent, the childcare provider pledges to contact you immediately to ensure the safety of your child. (This is very similar to the ‘absence-line’ used by most elementary, middle and high schools.)
• Keep vehicles locked at all times, even in driveways or garages. Ask home visitors, child care providers and neighbors to do the same.
• Keep car keys and remote openers out of reach of children.
• If a child goes missing, immediately check the inside passenger compartments and trunks of all vehicles in the area very carefully, even if they are locked. A child may lock the car doors after entering a vehicle on their own, but may not be able to unlock them.
• If you see a child alone in a vehicle, get involved. Call 911 immediately. If the child seems hot or sick, get them out of the vehicle as quickly as possible.

Please share these important safety tips with your childcare providers, teachers, relatives, friends, family and neighbors… It could save a life!

Citizen's Police Academy
Tuesday's, September 4th - November 6th 6:00 pm - 9:00 pm
Police Department Training Room • FREE
The Glendale Heights Police Department will host their 20th Citizen’s Police Academy. The program taught by officers from the Glendale Heights Police Department along with guest instructors from other agencies, is designed to give residents a realistic view of police work by providing instruction on various police topics.
A minimum enrollment of 10 students is required to hold the Academy, and the maximum class size will be limited to 24 students.

Enrollment is free. Citizens 18 years of age or older who live or work in Glendale Heights are invited to attend. *Note: Due to the nature of the course and curriculum, individuals with prior felony arrests or convictions will be declined.
Applications for enrollment are due no later than August 24, 2018. Interested persons are encouraged to contact Sergeant George Pappas at 630.909.5442 or Maureen Pope at 630.909.5407 for additional information or an enrollment application. Applications can also be downloaded and printed from the Village website, but must be dropped off or mailed to the Police Department once completed.
FlowRider Lessons - Learn to Catch the Wave
Classes are held Monday through Thursday for two weeks. Fridays are reserved as make-up days if a class is canceled due to weather. Make-up classes are not offered for missed lessons due to personal reasons. The Pool Manager holds final authority to cancel or postpone classes. In case of inclement weather, please call 630.260.6000 ex. 3342 for the status of your lesson.

Surf Club
Join Surf Club for exclusive rights to the Flow Rider and the ability to practice stand-up riding. Try stand-up surfing for the day while the pool is open to the public with a signed waiver and purchased wristband ($5 per day pass). Ask at the pool front desk for details!

Surf Club Hours
Monday - Friday - 7:00 am - 9:00 am; 11:00 am - Noon; 7:00 pm - 8:00 pm
Sunday - 5:30 pm - 7:00 pm
Fee: $50.00 (GH2O Aquatic Center Members ONLY)
Surf Club runs through August 10th (No Surf Club on July 4th)

Swim Lessons
(Ages 8 months and up)
The Village of Glendale Heights Aquatic Center offers a progressive and self-paced swim lesson program each summer. We offer student-focused instruction while maintaining low, age-appropriate ratios. Classes run Monday through Thursday for two week sessions throughout the summer. We reserve Fridays as make-up days if we cancel class due to weather or events.

Instructors test swimmers on the first day of class. If the swimmer does not show the skill set required for the course, the pool manager will reassign the swimmer to another level. Please note the appropriate fee or refund will apply. The best way to find the right class is to read the skills taught for each level. If the swimmer has not accomplished the listed goals, we recommend the student start in that class. At the end of each session, swimmers receive a certificate indicating their progress.

All classes include a lesson on the water safety. Lifeguards may instruct out of the water due to weather or subject matter, and the lesson counts as a class. We invite parents to observe from the concession area of the pool, and from this area only, to reduce distractions to students. The Pool Manager holds final authority to cancel or postpone classes. In case of inclement weather, please call 630.260.6000, ext 3342 for the status of the swim lesson. There are no refunds for lessons missed due to inclement weather. There are no make-up classes or refunds for students who miss lessons.
Paint Reuse & Recycling Tips

DuPage County Latex Paint Recycling Program
Residents can drop off their usable, unwanted latex paint during the designated summer collections free of charge. Usable paint is paint that has not been frozen, is less than 10 years in age and has not been mixed with other products.

Free Recycled Latex Paint
Paint will be filtered and re-blended into a variety of colors, types and finishes. Recycled paint will be distributed to residents during the same hours of collection. Paint is offered free to any resident, business, non-profit, etc. in 5-gallon containers.

Location:
Woodridge Greene Valley
Wastewater Treatment Facility
7900 S. Route 53, Woodridge

Hours:
June 25- August 4, 2018 (Closed July 4, 2018)
Monday – Saturday: 8:00 am – 2:00 pm

How to Dispose of Unusable Latex Paint
Latex paint is not a hazardous material and therefore it may be discarded in the trash when properly prepared per hauler requirements. Republic Services will collect unusable latex paint during residential curbside collections only when the paint is *hardened and dry and when the can(s) are placed next to the totes with the top(s) off. The truck driver will confirm that the paint is dry/hardened and place it in the cart for disposal. For further questions, residents may contact Republic Services 847.981.0091.

*To dry paint, mix sand, dirt, kitty litter or oil dry to soak up the paint until the substance has turned into a dry paste and has hardened.

Tips to better manage use of latex paint!
When painting a room, buy what you need and not just what is on sale. Save leftover paint in a glass jar with minimal air space for touch ups. Label the jar for which room the paint was used or keep in the room itself. Do not store paint in the garage -once frozen it is not reusable.

Water Bill Auto Pay
Pay your water bill automatically by registering for monthly auto-payment. Auto payment will withdraw your monthly payment on the due date directly from your checking, savings, debit, or credit card. Register online at www.glendaleheights.org and select on-line water payment. If you are already registered for on-line payment, access your account and follow the instructions for auto-payment. Call 630.260.6010 with any questions.
Known to many as one of the Western Suburbs' premier events, Glendale Heights Fest will be held on Wednesday, July 11 through Sunday, July 15 at Camera Park. Enjoy the carnival and rides, along with exciting entertainment and fantastic food booths.

Watch a breathtaking display of fireworks at dusk on Wednesday, July 11 and again on Sunday, July 15. Plan to spend a fun-filled time at Glendale Heights Fest with delicious food and entertainment for the entire family.

Carnival Wristband Days
Purchase a carnival wristband on or before July 11th and pay just $20! Regular wristband sales are $25 during the event. A Wristband for unlimited carnival rides is honored on ONE of the following days and times:

- Wednesday: 6:00 pm – 11:00 pm
- Thursday: 6:00 pm – 11:00 pm
- Friday: 6:00 pm – Midnight
- Saturday: 3:00 pm – 7:00 pm
- Sunday: 3:00 pm – 7:00 pm

Advanced daily pre-sale wristband vouchers are available through Wednesday, July 11.

Pre-sale wristband vouchers can be purchased at the following Glendale Heights locations: Village Hall, Center for Senior Citizens and the Sports Hub.

5-Day Mega Pass - Only $70
The Mega Pass card ($70) is valid for unlimited rides on all 5 days! Every Mega Pass holder will be required to take a picture for a Mega Pass Photo ID Card (Mega Passes are non-transferable, non-refundable and all parties must be present at the time of purchase) which will then be used to redeem a special wristband for EACH DAY.

Mega Passes are only available for purchase at the Glendale Heights Sports Hub during normal registration hours located at 250 Civic Center Plaza through Wednesday, July 11. Mega pass wristbands are honored on the following days and times:

- Wednesday: 6:00 pm – 11:00 pm
- Thursday: 6:00 pm – 11:00 pm
- Friday: 6:00 pm – Midnight
- Saturday: 3:00 pm – Midnight
- Sunday: 3:00 pm – 7:00 pm

Note: Certain rides have height restrictions.

Selling Your Home

If you decide to sell your home in Glendale Heights, here are some tips that will help you in the process! First off, you are required to obtain a real estate transfer stamp, which may be done by following these simple steps:

1. Submit a completed Real Estate Transfer Certificate of Compliance application a minimum of 21 days prior to closing, which is available online or at Village Hall.
2. Submit an inspection application fee of $100.00 for a single family home.
3. An inspection will be scheduled when the application and fee is submitted.
4. When the inspection is conducted, you will be provided with a report of any items that need to be corrected. You may make the corrections and have a re-inspection, or the purchaser may sign a Guarantee of Compliance and post an escrow to guarantee that the work will be completed within 30 days.
5. A plat of survey of the property less than a year old must be submitted as part of the inspection process.
6. Once the inspection passes or the Guarantee of Compliance is signed and escrow posted, you may submit an application for the Transfer Stamp along with the following documentation:
   a. Payment of the transfer tax prior to transferring title to or assigning the beneficial interest in a land trust. The fee is $3.00 for every $1,000.00 of value or fraction thereof.
   b. A receipt of payment of the final water bill.
   c. A copy of the original deed, which may be signed by your attorney.
   d. A copy of the P-TAX State Declaration, which may be signed by your attorney.

Once the fees and taxes are paid and the documentation is submitted, the Village will issue the tax stamp. For more information on this process, please contact Community Development at 630.260.6030.

CHARACTER COUNTS!

in Glendale Heights

The Glendale Heights CHARACTER COUNTS! Coalition would like to invite our residents and businesses to practice T (trustworthiness) R (respect) R (responsibility) F (fairness) C (caring) C (citizenship) this summer with us in Glendale Heights.

The Village of Glendale Heights congratulates all of the award winners announced at the 2018 CHARACTER COUNTS! Pillar Awards Annual Recognition Breakfast.

The pillar for July is TRUSTWORTHINESS & the pillar for August is RESPECT.

House/Garage Sale Permits

Homeowners are reminded that per Village Ordinance a permit is required to hold a House or Garage sale. A fee of $10 is collected at the time of the application, along with homeowner’s signed Permit Consent form. Please call 630.260.6000 with any questions.

Be Prepared Before the Storm

Here are some basic items you should store in your home in case of emergency:

- **Water:** Three day supply, one gallon per person per day
- **Food:** Three day supply, non-perishable, high-energy
- **Clothing, bedding, and sanitation supplies**
- **Tools:** Can opener, plates, utensils, flashlight,
batteries, cash, bleach, hand sanitizer
- **First aid supplies, medicine**
- **Important documents**

Visit redcross.org/domore to learn more about disaster kits.

Source: American Red Cross, Federal Emergency Management Agency

Village Meetings

Regularly scheduled meetings are held at the Civic Center, unless otherwise noted. Call the Village Hall at 630.260.6000 for more information.

**Board of Police Commissioners**
2nd Wednesday of each month, 7:00 pm

**CHARACTER COUNTS! Coalition**
3rd Wednesday of each month, 7:30 am
Glenside Public Library District

**Charity Golf Classic Committee**
Scheduled periodically throughout the year
Glendale Lakes Golf Club

**Emergency Services & Disaster Agency (E.S.D.A.)**
1st Wednesday of each month, 7:00 pm

**Founders’ Day Committee**
Scheduled periodically throughout the year

**Golf Course Committee**
Thursday, 7:00 pm
Nov. 8
Glendale Lakes Golf Club

**Historical Committee**
Scheduled periodically throughout the year
Glendale Heights Historic House

**Neighborhood Watch**
Meetings vary from month to month.
Please visit the website for the next Neighborhood Watch meeting.

**Parks & Recreation Committee**
3rd Tuesday of every other month, 7:00 pm
Sports Hub

**Plan Commission**
2nd & 4th Tuesday of each month, 7:00 pm

**Property Enhancement**
4th Wednesday of each month, 6:30 pm

**Senior Citizens Council**
4th Wednesday of each month,
Center for Senior Citizens, 8:30 am

**Village Board and Committee of the Whole Meetings (C.O.W.)**
1st & 3rd Thursday of each month, 7:30 pm

**Youth Commission**
2nd Wednesday of each month, 7:30 am
Glendale Lakes Golf Club

*The Village Board & C.O.W. meetings may be viewed the day following the meeting at 1:00 pm and 6:00 pm on GHTV (channel 6 for Comcast & W.O.W, channel 99 for AT&T) or on YouTube at www.youtube.com/GlendaleHtsTV.*

ANNUAL DRINKING WATER QUALITY REPORT
VILLAGE OF GLENDALE HEIGHTS
For the period of January 1, 2017 to December 31, 2017

This report is intended to provide you with important information about your drinking water and the efforts made by the Village of Glendale Heights Water Division to provide safe drinking water. The source of drinking water distributed by the Village is purchased from the DuPage Water Commission.

For more information regarding this report, contact:
Name: Jeff McCumber, Utilities Division Manager- Facility # IL 0430400
Phone: (630) 260 6040

We are pleased to report that The Village of Glendale Heights’ drinking water had no violations or exceeded any other water quality standard. No drinking water quality violations were recorded during 2017.

We want our valued customers to be informed about their water quality. If you would like to learn more, please feel welcome to attend any of our regularly scheduled Village Board meetings every first and third Thursday of the month. The meetings are held at Village Hall, 300 Civic Center Plaza, and begin at 7:30 p.m. You can also attend the DuPage Water Commission meetings. For information on when their meetings are scheduled, please call (630) 834 0100. The source water assessment for our supply has been completed by the Illinois EPA. If you would like a copy of this information, please stop by Village Hall or call our Utilities Division Manager at (630) 260 6040. To view a summary version of the completed Source Water Assessments, including Importance of Source Water; Susceptible to Contamination Determination; and documentation/recommendation of Source Water Protection Efforts, you may access the Illinois EPA website at http://www.epa.state.il.us/cgi-bin/wp/swap-fact-sheets.p1

Source of Drinking Water
Lake Michigan water is supplied to the DuPage Water Commission from the City of Chicago. The City does all water filtration and treatment. The DuPage Water Commission adds chlorine and delivers the water through a series of water mains and storage tanks. The Village of Glendale Heights then delivers the water through several pump stations, storage tanks and water mains. The Village does not add chemicals to the water, but has the capabilities to do so.

The Illinois EPA considers all surface water sources of community water supply to be susceptible to potential pollution problems. The very nature of surface water allows contaminants to migrate into the intake with no protection only dilution. This is the reason for the mandatory treatment for all surface water supplies in Illinois. Chicago’s off shore intakes are located at a distance that shoreline impacts are not usually considered a factor on water quality. At certain times of the year, however, the potential for contamination exists due to wet weather flows and river reversals. In addition, the placement of the crib structures may serve to attract waterfowl, gulls, and terns that frequent the Great Lakes area, thereby concentrating fecal deposits at the intake and thus compromising the source water quality. Conversely, the shore intakes are highly susceptible to storm water run-off, marinas and shoreline point sources due to the influx of ground water to the lake.

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.
- Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA’s Safe Drinking Water Hotline 1 (800) 426 4791.

In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline 1 (800) 426 4791.
**Source Water Location**
The City of Chicago utilizes Lake Michigan as its source water via two water treatment plants. The Jardine Water Purification Plant serves the northern areas of the City and suburbs, while the South Water Purification Plant serves the southern areas of the City and suburbs. Lake Michigan is the only Great Lake that is entirely contained within the United States. It borders Illinois, Indiana, Michigan, and Wisconsin, and is the second largest Great Lake by volume with 1,180 cubic miles of water and third largest by area.

**Source Water Assessment Summary**
The Illinois EPA implemented a Source Water Assessment Program (SWAP) to assist with watershed protection of public drinking water supplies. The SWAP inventories potential sources of contamination and determined the susceptibility of the source water to contamination. The Illinois EPA has completed the Source Water Assessment Program for our supply. Further information on the City of Chicago's water supply's Source Water Assessment Program is available by calling the City of Chicago, Department of Water Management at 312-744-6635.

**Susceptibility to Contamination**
The Illinois EPA considers all surface water sources of community water supply to be susceptible to potential pollution problems. The very nature of surface water allows contaminants to migrate into the intake with no protection only dilution. This is the reason for mandatory treatment of all surface water supplies in Illinois. Chicago’s offshore intakes are located at a distance that shoreline impacts are not usually considered a factor on water quality. At certain times of the year, however, the potential for contamination exists due to wet-weather flows and river reversals. In addition, the placement of the crib structures may serve to attract waterfowl, gulls and terns that frequent the Great Lakes area, thereby concentrating fecal deposits at the intake and thus compromising the source water quality. Conversely, the shore intakes are highly susceptible to storm water runoff, marinas and shoreline point sources due to the influx of groundwater to the lake.

Further information on our community water supply’s Source Water Assessment Program is available by calling the City of Chicago, Department of Water Management at 312-744-6635.

**2017 Voluntary Monitoring**
The City of Chicago has continued monitoring for Cryptosporidium, Giardia and E. Coli in its source water as part of its water quality program. To date, Cryptosporidium has not been detected in these samples, but Giardia was detected in 2010 in one raw lake water sample collected in September 2010. Treatment processes have been optimized to provide effective barriers for removal of Cryptosporidium oocysts and Giardia cysts in the source water, effectively removing these organisms in the treatment process. By maintaining low turbidity through the removal of particles from the water, the possibility of Cryptosporidium and Giardia organisms getting into the drinking water system is greatly reduced. Also, in compliance with Long Term 2 Enhanced Surface Water Treatment Rule (LT2ESWTR) Round 2, the City of Chicago has continued the 24 months long monitoring program (April 2015 through April 2017), collecting samples from its source water once per month to monitor for Cryptosporidium, Giardia, E. coli and turbidity, with no detections for Cryptosporidium and Giardia reported so far.

In 2017, CDWM has also continued monitoring for hexavalent chromium, also known as chromium-6. USEPA has not yet established a standard for chromium-6, a contaminant of concern which has both natural and industrial sources. Please address any questions or concerns to DWM's Water Management at 312-744-6635. Data reports on the monitoring program for chromium-6 are posted on the City's website which can be accessed at the following address below:

**DATA TABULATED BY CHICAGO DEPARTMENT OF WATER MANAGEMENT**

2017 Water Quality Data Table Footnotes

Turbidity
Turbidity is a measure of the cloudiness of the water. We monitor it because it is a good indicator of water quality and the effectiveness of our filtration system and disinfectants.

Unregulated Contaminants
A maximum contaminant level (MCL) for this contaminant has not been established by either state or federal regulations, nor has mandatory health effects language. The purpose for monitoring this contaminant is to assist USEPA in determining the occurrence of unregulated contaminants in drinking water, and whether future regulation is warranted.

Sodium
There is no state or federal MCL for sodium. Monitoring is required to provide information to consumers and health officials who have concerns about sodium intake due to dietary precautions. If you are on a sodium-restricted diet, you should consult a physician about the level of sodium in the water.

Fluoride
Fluoride is added to the water supply to help promote strong teeth. The Illinois Department of Public Health recommends an optimal fluoride level of 0.7 mg/l with a range of 0.6 mg/l to 0.8 mg/l.

Lead and Copper

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. We cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking.

If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead.

Definitions:
Action Level Goal (ALG): The level of a contaminant in drinking water below which there is no known or expected risk to health. ALGs allow for a margin of safety.
Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Water Quality Test Results

Definitions: The following tables contain scientific terms and measures, some of which may require explanation.

Avg: Regulatory compliance with some MCL’s are based on running annual average of monthly samples.

Level 1 Assessment: A Level 1 assessment is a study of the water system to identify potential problems and determine (if possible) why total coliform bacteria have been found in our water system.

Level 2 Assessment: A Level 2 assessment is a very detailed study of the water system to identify potential problems and determine (if possible) why an E. Coli MCL violation has occurred and/or why total coliform have been found in our water system on multiple occasions.

Maximum Contaminant Level or MCL: The highest level of a contaminant that is allowed in drinking water. MCL’s are set as close to the MCLG’s as feasible using the best available treatment technology.

Maximum Contaminant Level Goal or MCLG: The level of a contaminant in drinking water, which there is no known or expected risk to health. MCLG’s allow for a margin of safety.
Maximum Residual Disinfectant Level or MRDL: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Maximum Residual Disinfectant Level Goal or MRDLG: The level of a contaminant in drinking water, which there is no known or expected risk to health. MRDLG's do not reflect the benefits of the use of disinfectants to control microbial contaminants.

na: Not Applicable

mrem: millirems per year (a measure of radiation absorbed by the body)

ppb: micrograms per liter or parts per billion – or one ounce in 7,350,000 gallons of water.

ppm: milligrams per liter or parts per million – or one ounce in 7,350 gallons of water

Treatment Technique or TT: A required process intended to reduce the level of a contaminant in drinking water.

GLENDALE HEIGHTS STAND-BY WELLS

The Village of Glendale Heights' Stand-by Wells have been maintained in accordance with IEPA testing requirements and standards and are for emergency purposes only. The four Well sites are operated and tested without supplementing the Lake Michigan Water that we purchase and distribute from the DuPage Water Commission.

Inorganic Compounds are tests performed for stand-by wells, which are not connected to the distribution system and are for emergency purposes only.

*Arsenic –While your drinking water meets EPA standards for arsenic, it does contain low levels of arsenic. EPA's standard balances the current understanding of arsenics possible health effects against the cost of removing arsenic from drinking water. The EPA continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

Sodium | 2017 | 268 | 8.56 -268 | 0 | 0 | ppm | N | Erosion from naturally occurring deposits: used in water softener regeneration.

Sulfate | 2017 | 154 | 15.6 - 154 | 250 | 250 | ppm | N | Sulfate is a substance that occurs naturally in drinking water.

** The MCL and MCLG for Nickel were remanded on February 9th, 1995. This means that while many water suppliers continue to monitor nickel levels in their water, there is currently no EPA legal limit on the amount of nickel in drinking water. The EPA is considering the limit on nickel.

Glendale Heights UCMR 3 Testing

In 1996 amendments to the Safe Drinking Water Act (SDWA) require that once every five years, the U.S. Environmental Protection Agency (EPA) issue a new list of no more than 30 unregulated contaminants to be monitored by public water systems (PWSs). The Unregulated Contaminant Monitoring Rule (UCMR) provides EPA and other interested parties with scientifically valid data on the occurrence of contaminants in drinking water. These data serve as a primary source of occurrence and exposure information that the agency uses to develop regulatory decisions.

The Village of Glendale Heights is classified under the UCMR 3 as an Assessment Monitoring (List 1) community, and is monitoring for 21 chemicals in 2015 as a part of the UCMR monitoring requirements established in 1996 by the U.S. EPA. These results are seen in the table below:

**UCMR3 COMPLIANCE REPORTING**

</table>

Not all sample results may have been used for calculating the highest level detected because some results may be part of an evaluation to determine where compliance sampling should occur in the future.

### Information on Lead

If present, elevated levels of lead can cause serious health problems, especially for pregnant women or young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. DuPage Water Commission is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at:

[http://www.epa.gov/safewater/lead](http://www.epa.gov/safewater/lead)

**Educational statements and conservation strategies for surface water may be obtained at**

**Note:** The state requires monitoring of certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Therefore, some of this data may be more than one-year-old. MCL (Maximum Contaminant Level): The highest level of a contaminant that is allowed in drinking water. MCL's are set close to the MCLGs as feasible using the best available treatment technology. MCLG (Maximum Contaminant Level Goal): The level of contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety. AL (Action Level): The concentration of a contaminant which, if exceeded triggers treatment or other requirements which a water system must follow. ppm: parts per million, ppb: parts per billion, ppt: parts per trillion, pCi/l: picoCuries per liter (measurement of radioactivity)

### 2017 Water Quality Test Results:

**Definitions:** The following tables contain scientific terms and measures, some of which may require explanation.

**Maximum Contaminant Level (MCL):**
The highest level of a contaminant that is allowed in drinking water. MCL's are set as close to the Maximum Contaminant Level Goal as feasible, using the best available treatment technology.

**Maximum Contaminant Level Goal (MCLG):**
The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety.

**Maximum Residual Disinfectant Level (MRDL):**
The highest level of disinfectant allowed in drinking water.

**Maximum Residual Disinfectant Level Goal (MRDLG):**
The level of disinfectant in drinking water below which there is no known or expected risk to health. MRDLG’s allow for a margin of safety.
